CURIOSITY CABINET

Before museums existed, scientists and aristocrats created 'Cabinets of Curiosities' which were encyclopedic collections of objects. These were intriguing items such as shells, fossils, or coral.

What would you want to put in a curiosity cabinet of your own? Continue this contemporary example and draw your own fossils and plants in the different compartments.

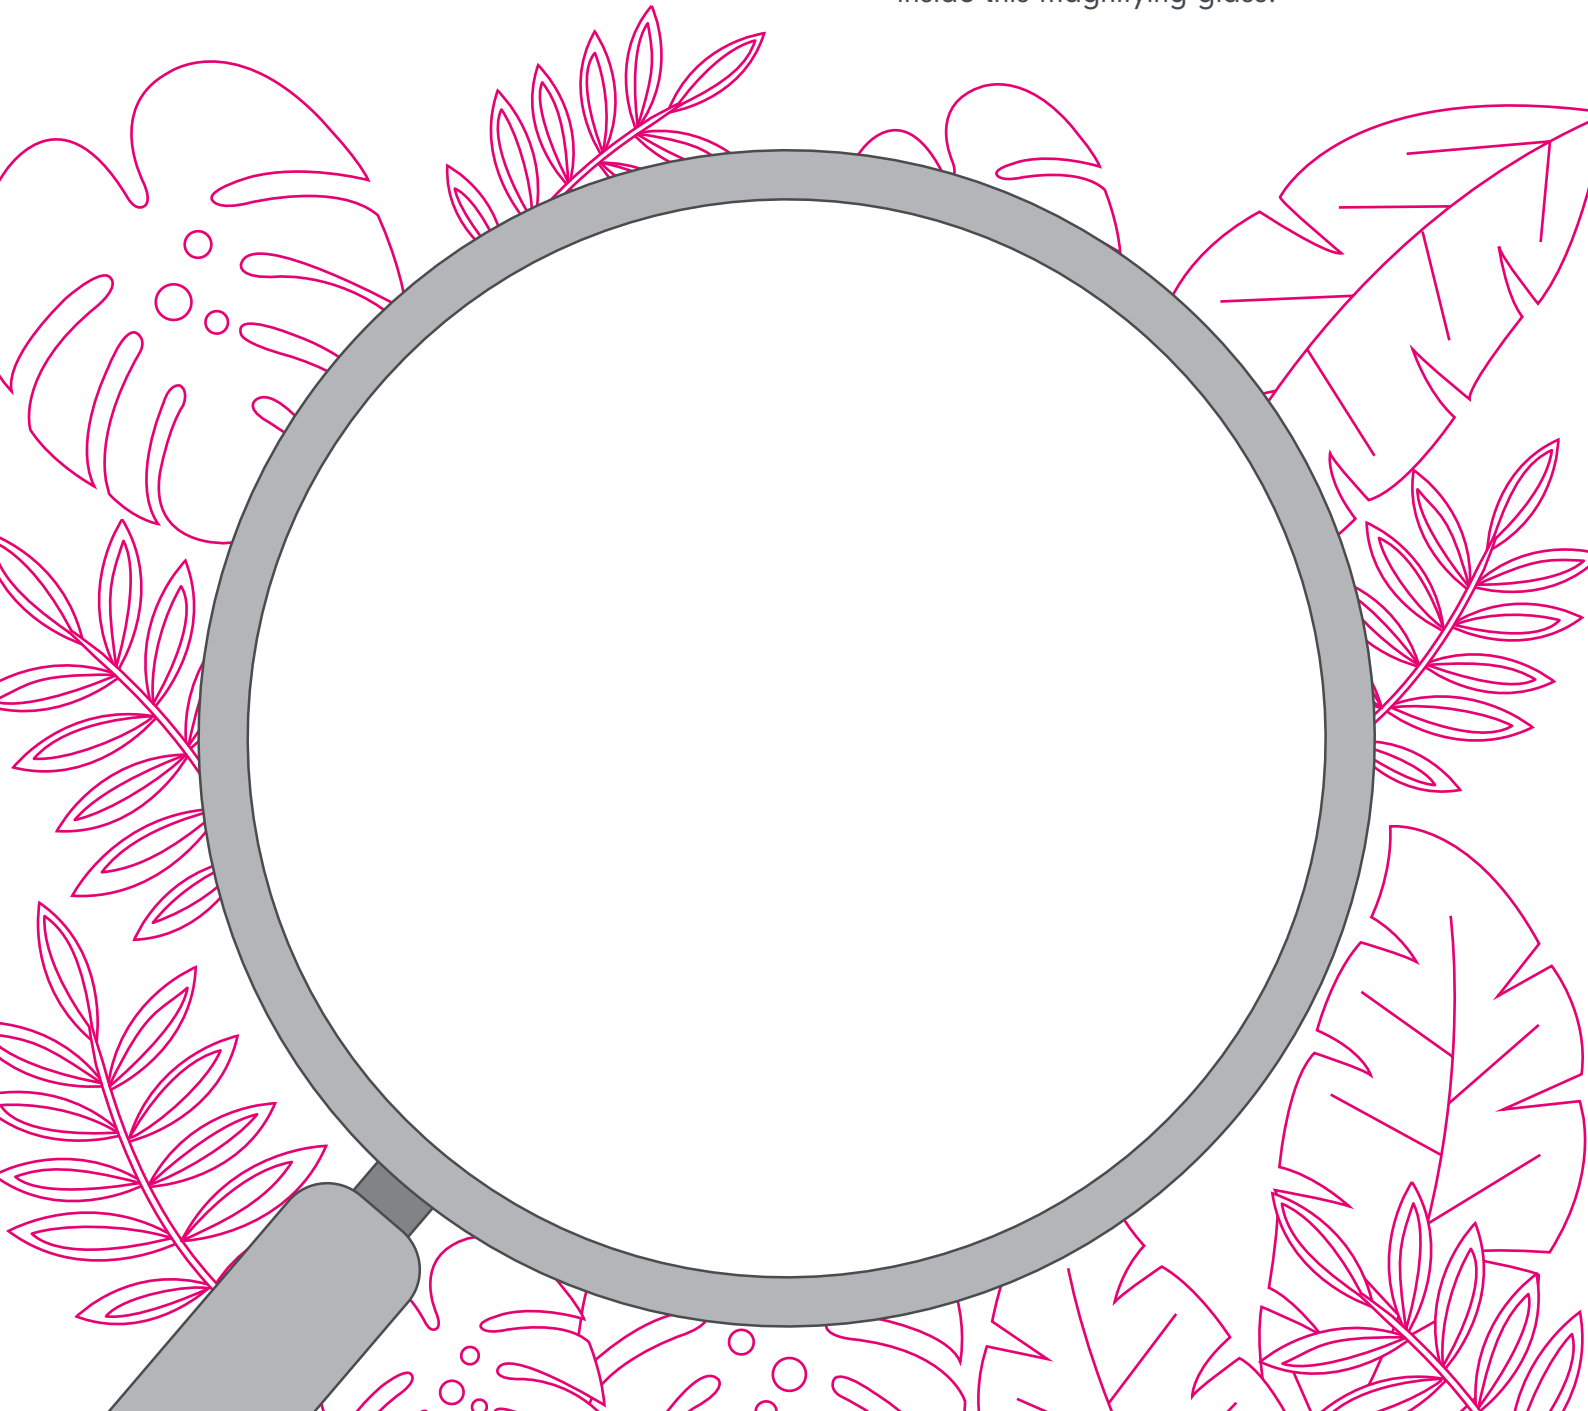

Abigail McDougall. Mirrored Palms Majorelle. Watercolour, 112cm x52cm, Bristol Contemporary Art

TROPICAL REFLECTIONS

Have a look at this explosion of vibrancy!
How many colours can you see?

Can you draw your favourite part of
