# Affordable Art Fair

Hi I'm Charlotte. I'm a screen printer and illustrator living in Bath, constantly being bossed about by my very demanding cat Margo. My favourite things to draw are objects that people collect (like stamps, snow globes and matchboxes) and animals, but my all-time favourite subject is things that people collect with animals on them!

In these weird times it's really important to have something to do to keep ourselves busy. When I was little, I loved drawing and colouring in, so hopefully my drawing sheets will keep you entertained for a little while and maybe give your parents a tiny bit of time off – or perhaps they could even join in with the colouring too, to take their mind off things.

I love using really bright colours in my work so I can't wait to see what colours everyone is going to use. As well as the animals and birds I've also added in some speech bubbles (I LOVE speech bubbles) so there's chance to think about what they might be saying to each other.
